# Non-GMOs just got sweeter

## Meet demand for non-GMO foods and beverages with non-GMO sweeteners manufactured in North America.

With the percentage of genetically modified corn grown in the U.S. exceeding 90%,<sup>1</sup> some manufacturers question the availability and purity of non-GMO ingredients. Only Ingredion answers these concerns with the broadest range of non-GMO sweeteners available and more than a decade of experience meeting and exceeding international, third-party non-GMO standards. And Ingredion operates three production sites for non-GMO sweeteners in North America, so you can enjoy shorter lead times and reach your speed-to-market targets more easily.
