Product List – Material Not Produced under an IP Program

The products with the PIN numbers listed below are not produced under an IP program for non-GM materials and may contain GM DNA or protein in the finished product. Please note that this list is specific for the PIN number given.

Ingredion Incorporated does have a number of non-GM products available. If you are interested in a non-GM product, please contact your Ingredion Incorporated Sales or Technical Service person to discuss which of our TRUETRACE® Non-GM Identity Preserved Program certified non-GM products best suits your needs.

Thank you for your interest in Ingredion Incorporated’s products.
